

Association of Anesthesiologists of Indian Medicine

RESEARCH

Research in Ayurveda till 2011 in the Section of Sangyahan, Deptt. of Shalya Tantra, I.M.S., B.H.U.

- Dr. Lalta Prasad - Role of Certain indigenous compound Shankpushpi and Jalnimb as medicant before Anaesthesia- 1975
- Dr. S.N. Pant- Free fatty acid and blood glucose studies after use of Jalnimba and Shankpushpi as premedicant-1976
- Dr. (Kr.) H.Laur – Studies on certain indigenous drug as anesthetic agent-1979
- Dr. Ashok Dixit- Studies on role of Parsikyavani as preanesthetic agent-1980
- Dr. C.B. Verma- Duration of muscle relaxant in different Prakriti-1982
- Dr. Y.P. Shyamrao- Role of Jalnimb & Parsik yawani as premedication in local anesthesia -1984
- Dr. P.K. Gulati – Role of Jatamansi in Anesthesia-1985
- Dr. D.N. Pande – Studies on poorvakarma (Bastikarma) in relation to Anesthesia-1986
- Dr. S.Bhatt- Studies on poorvakarma (veerechana) in relation to anesthesia-1988
- Dr. A.K. Rai- Clinical evaluation of some indigenous drug as analgesic in surgical cases-1989
- Dr. B.C. Senapati – Application of Anesthesia in the management of Gudaroga W.S.R. to Kshar sutra-1990
- Dr. K.K. Pande- Evaluation of Ashwagandha as Pre-Anaesthetics agent-1991
- Dr. Sanjeev Sharma- Studies on the Alcoholic extract of Ashwagandha (W.sommifera) as pre Anaesthetic medication (An experiment and clinical study)- 1992
- Dr. C.K. Dash- Studies on Halothane Anaesthesia in relation to Prakriti-1992
- Dr. Anil Dutt- Comparative clinical study of Bramhi & Ashwagandha as pre- Anaesthetic medication-1993
- Dr. S.K. Manchala- Clinical evaluation of mandukparni (C.Asitica) in Anaesthesia-1994
- Dr. R.K. Ghosh- Clinical studies on an indigenous compound (Nirgundi, Erandamul, Bala) as analgesic in post operative pain-1995
- Dr. K.Lal – Biochemical studies on parsikyavani as pre-Medication-1995
- Dr. R. Ashtana- Evaluation of Bramhi as Pre-Anaesthetic agent in relation to Deh prakriti-1996
- Dr. P.K. Sharma – Evaluation of Jatamansi as pre-Anaesthetic medication (A Biochemical study)- 1997
- Dr. P.S. Pandey – Clinical & experimental studies on an indigenous compound (Nirgundi, Erandomula & Bhrigraja) as an Analgesic-1997
- Dr. D.A.R. Sakunthala – Studies on Water extract of Ashwagandha as pre- Medication in Epidural Anaesthesia-1997
- Dr. S.K. Mishra- Evaluation of Vacha as premedicant-1998
- Dr. G.Shah- Study of Parijat in postoperative pain under sub Archaniod block-1998
- Dr. S.K. Singh- Studies of Parijat in the postoperative pain management under sarvadehik Sangyahan-1999
- Dr. A. Pai- Studies of Rasana (clinical) in postoperative pain management under Sarvadehik Sangyahan-1999
- Dr. H.O. Singh- Evaluation of Triphala Guggulu in postoperative pain management-2000

Dr. R.K. Jaiswal- Comparative study on postoperative Analgesia and Anti- inflammatory Activity of Rasana And Parijat as Premedication-2001

Dr. Rajesh Singh- Biochemical studies of Parijat (Nyctanthes arbortristis linn) Ghansatva during and after intra thecal Anaesthesia-2002

Dr. Champak Medhi- Evaluation of Shigru (Moringa obeiferalam) in Sangyahan as per Anaesthetic Agent-2003

Dr. B.N. Maurya – Evaluation of Shigru Guggulu in Sangyahan as Vedanahar (Pain Relieving) -2004

Dr. Awaneesh Kumar- Role of Shigru Ghansatwa under Sarvadaihk Sangyahan(G.A.)a Clinical study-2005

Dr. Jagdish Singh – Critical Analysis of Marma with especial reference to Sangyahan-2006

Dr. Y.K. Mishra- Role of Dashmool Ghanvati in the management of the patients operated under regional Block-2007

Dr. Vimal Kumar- Role of kadamba (anthocephalus indicus) in post operative pain management under regional block-2008

Dr. Deepak K. Poman – critical analysis of Agnikarma in pain management-2009

Dr. Sachhidanand Prasad- Role of Herbal Drug compounds in cancer patients – a. Holistic approach in palliative care-2009

Dr. Bhaskar Maurya – Role of Padmak as Pre-Anesthetic Agent in post operative pain management under regional Anaesthesia-2010

Dr. Sadanand Prakash – Evaluation of Bala Under regional Block-2011

Dr.J.K. Chaubey - Comparative study of Jalauka vacharan & Agnikarma in pain management-2011

Dr. Ashish Maurya- Imuno modulatory effect of Harbal drug Tenasporea cardi-
folia in palliative care-2012

Dr.Shailendra Singh- Effect of Shallaki in P.O. Pain Management-2012

Ph.D. Research Work done in Sangyahan Specialty

1. Dr. S.B. Pande- Evaluation of some indigenous drug as adjuvant in Anaesthesia (Experimental study) -1977.
2. Dr. F.S. Gandevia- Ether Anaesthesia in relation to Deh Prakriti-1978.
3. Dr. D.N. Pande- Further studies on Poorva Karma in Anaesthesia-1990.
4. Dr. K.K. Pande – Role of Medhya Drug in Sangyahan(Anaesthesia)- 1994.
5. Dr. Sanjeev Sharma- Role of Ashwagandha in Sangyahan W.S.R. to Regional Anaesthesia- 1997.
6. Dr. C.K. Dash- Anaesthesia in relation to Deh Prakriti(clinical study)- 1997.
7. Dr. R.K. Jaiswal- Evaluation of Dashmulghanvati as premedicant-2008.
8. Dr. B.N. Maurya- Further studies on Shigru guggulu in Sangyahan as vedanahar (pain relieving)- 2008.
9. Dr. C.P. Bhushal- Role of indigenous compound in Sandhi Vata -2008.
10. Dr. Y.K. Mishra- Comparative studies of Agnikarma & Dashmul ghanvati in the treatment of Sandhivat Arthritis-2009.
11. Dr. S.Bhat- Comparative study of Indigenous compound (Nirgundi, Rashna, & Parijat) – with Agni Karma for Management Pain-2010.
12. Dr. P.K. Bharti- Standardization of Agnikarama and to Established standard protocol of treatment for Pain Management-2010.
